CONFERENCE THIS WEEK
MEANS PEACE OR WAR

Paris, Nov. 19.—(By the A. P.)—While the conference has assembled for the purpose of bringing to a final settlement of the last series of wars that were part and parcel of the general European conflict, there is still much speculation as to whether peace or war will be the outcome of that conference. In many quarters it is felt that if peace is signed it will, in effect, be a mere truce.

On the other hand, it is known that the Turks are already seeking loans to equip their army and make up the munition losses suffered during the retreat in Asia-Minor. The Greeks feel that if they hold Salonic it must be by their own hands; they have before them the lesson of the manner in which the allies gave a large portion of Thrace to the Turks.

On the other hand, it is known that the Turks are for the moment short of powder. While they are endeavoring to concentrate their main forces so far as possible, if it appears necessary to their new national interests, they would not hesitate to use force of arms to back up what they feel to be their rights. The Turks have plenty of fine field guns, captured from the Greeks, not counting a large number of machine guns and others they brought over years in job lots from the United States, French, Italian and British equipment firms.

However, such a condition is not embarrassing to the Turks, who are aware that a large number of Russian munition works are actively engaged in the manufacture of heavy guns and powder. These include the old Putilov factory at Peterhof. Whether the Russians will be able to sell to the Turks a large quantity of gun powder needed in modern warfare—an amount averaging one pound daily per man—is a question, but munitions experts point out that the Turks doubtless would be able to purchase from other sources if the Russians failed to meet their needs for their own purposes.

Although Germany has no large munition plants working, it is certain that Germany is maintaining a big powder plant operating at Preussisch-Castell in Czecho-Slovakia. Germany, however, will be obliged to surrender its ownership later in this plant by June next.

Information reaching Paris tends to discount any new war alarms from any source at the present time, with no munition buying on a large scale by any of the great powers. Military observers are keeping sharp eyes on Russia's activities, with the fact noted that the Balkans and Central Europe continually present possibilities of a conflict, due to unsettled frontiers.

It is not believed that Soviet Russia is manufacturing munitions with any definite war in view, inasmuch as her western Europe propaganda has failed, but it is pointed out that she may be hoping to win a place in European councils through the influence of her army.

Diplomatic observers agree with the Greek contention that the new frontiers created in Thrace are sure to lead to new difficulties.

An American who recently inspected Salonic says that city's Turkish pre-war prosperity is dead, because Salonic was formerly financed by a hinterland of 150 miles, whereas the new frontiers now of three different nations have made impossible any way of Salonic's remaining in business.

He cited one case of a train load of tobacco fertilizer which was being imported by way of Trieste, territory now under Salonic but which was seized by Comitadi and carried off towards the Bulgarian frontier.

Such conditions, it is repeated in Asia-Minor on a wider scale, would be certain to lead to vigorous action by the nations along the lines.

The Turks are bent on improving their social conditions in Asia-Minor, according to their assertions, and the gradually assuming its definite task of linking up and strengthening the Musulman peoples in a straight line east as far as Afghanistan and west as far as Egypt.

STEAMER CONGO SENT RADIO
CALL FOR ASSISTANCE

Boston, Nov. 19.—The coalition of the steamer Congo, which last night sank in an "S. O. S." call for assistance, was a matter of concern in maritime circles here tonight. During the past week a number of ships reported having sighted an iceberg in the vicinity of the transatlantic cable, a report of a train load of tobacco fertilizer which was being imported by way of Trieste, territory now under Salonic but which was seized by Comitadi and carried off towards the Bulgarian frontier.

Such conditions, it is repeated in Asia-Minor on a wider scale, would be certain to lead to vigorous action by the nations along the lines.

Norwich, Monday, Nov. 20, 1922.

PERSONALS

Mr. and Mrs. Lloyd Beebe of Sturbridge were week end guests of friends in this city.

Mr. and Mrs. Fred Merrill of West Somerville spent Sunday at Mrs. Merrill's former home in this city.

John F. Kehane of Claremont avenue, has become a resident at Hingham with the Lake Torpedo Boat Co. of Bridgewater.

Mr. and Mrs. George Blodgette moved here from New York city and were taken end end of Mr. and Mrs. Edward Blodgette of Ballito.

Mrs. Raoul Meagan of this city attended the wedding of her brother, Peter N. Spencer and Miss Beatrice A. Sewell which took place in Brattleboro, Vt., on Wednesday.

OBITUARY

Mr. James Gardner.

On Saturday evening, Oct. 13, the death and peaceful life of Martin Gardner, a widow of 75, occurred at a close at 185 Hickory street. Mrs. Gardner was born in 1846 and came to this country 43 years ago.

She was the daughter of her husband in 1913 when he made his home with her wife, Mrs. James Kingham of Hickory street. She was one of the oldest members of the Greenlawn Congregational Church.

The United States civil service commission has issued orders for the examination of applicants for a number of positions during December.

Mr. and Mrs. Orin L. Swain of North Stonington announced the engagement of their daughter, Myrtle Frances, to Stanley Senior of Westerly.

Notice has been received that the raffle ship for Rialto will not sail until later, so another boat will be sent by the Central Baptist church this week.

Grand Captain J. Martin Burdick and K. E. C. Herbert Shaw addressed the members of Bowen Lodge, H. P. of, at Westerly Thursday evening.

Miss Dorothy Lester of Norwich was assistant chairman of secretary at the annual junior show, A Gold Girl, at Mt. Holyoke college Friday evening.

Captain Arthur J. Thoma, Company H, 19th infantry, has been transferred to Headquarters and Combat Train, First Battalion, 19th Field Artillery, this city.

The annual play presented by the Drama club of Connecticut College was given Saturday evening when Mrs. and Mr. Mowen staged in the college gymnasium.

FOOTBALL

AMERICAN FOOTBALL

The death of William B. Cousins of East Granville occurred Saturday evening at a private hospital in New London, where he had gone on Nov. 11 for an operation. Mr. Cousins failed to rally following the operation and gradually passed away on the evening of Nov. 13.

He leaves besides his wife to Muriel, three brothers, Judson T. of New London, Samuel S. of Billerica, Mass., and John J. Gough of this city, and three sisters, Mrs. Daniel Graham of Middletown, Mrs. Sarah Littlestone of Worcester, and Mrs. Henry Littlestone of Prince Edward Island.

He had been employed at the Robert Gair company plant at Middletown as a paperhanger.

GENERAL

TO MAKE DAIRY SURVEY

At the regular quarterly meeting of the citizens of the New London County Farm Bureau, held at the Hotel New Haven, Nov. 13, a brief report of the extension work done in the county during the past three months showed that one new dairy club had been organized in Stonington; that two junior poultry clubs, one in Stonington and one in Griswold, had been reorganized, so that there is a good nucleus of young folk, and that a junior poultry club was planned for Middletown.

Under the joint efforts of men and women the dairy work is progressing well.

A report of the four spray rings organized by the farm bureau has sprung, showed that while there has not been a good set of rules, the work is progressing well in the spray rings, and very anxious for them to continue.

R. Foster of Lebanon, one of the members of the Lebanon spray ring, reported that on his small orchard he had two spray apples and had taken over \$50 worth of fruit from his trees. Whereas the total cost of spraying and his share in buying the power sprayer had been \$100, he had nothing but his apples from this orchard and said that if it had not been for the spraying ring the same condition would have held for this year.

W. W. Service reported that the annual meeting of cooperative exchange members and attendees had been held and that the session opened good and that the session opened well and was started for next spring to see whether the fields with extra good clover seed comes through looking better than those of last year.

In the morning at least in mild weather, the furnaces should be shaken down as usual and fired with some of the regular coal. After the fire has begun burning well it can be checked or banked by using a quantity of the coals.

"In the two cases, coal never should be mixed, but kept in separate bins. The buckwheat should be used only as a top dressing, and should not be used except with the largest sizes of anthracite.

The ordinary furnace does not have sufficient draft to produce satisfactory results when buckwheat is used with either chestnut or pea coal. The exact proportion of each and large coal should be determined by experience and by weather conditions.

Keep the egg and pea coal in separate bins.

"If you have a good bed of fire put the egg coal on first and then add a small amount of pea coal."

"The place for the regular meeting of the farm bureau was left to the two agents to arrange for. It is probable that this meeting will be held on December 1st. The nominating committee was elected to pick officers and directors for the coming year and was adjourned to meet at the Wadsworth Hotel, New Haven, on Dec. 1st.

Services were held in St. Patrick's church where Rev. Father J. Guerette was celebrating the requiem mass for William J. Farrell, who was in charge of the principal part of the service.

At the funeral service, Rev. Father J. Guerette was celebrating the requiem mass for William J. Farrell, who was in charge of the principal part of the service.

The Fraternal League ladies with a half dozen members from the Pacific coast, had arrived in New London. The delegation is continuing to the Thames River lumber company.

The Columbia Club, Inc., of Norwich has been formed as a social organization.

The subscribers to its articles of association are Harry Siman, Andrew Haligraide and Saranda Palleschi.

Governor Ladd has honored a request from the governor of Massachusetts for the return to Suffolk county, Mass., of Carl Reiner, who is wanted for non-support, desertion and abandonment.

During the past year the forest service, United States department of agriculture, conducted 724 miles of timber roads at a cost of \$24,000 and 2,855 miles of trails at a cost of \$15,155.

Endowment of Yale university was increased by \$2,945,000, bringing its total to \$2,842,611 in the year ending June 28, according to the report of the university to the forest service.

At the annual meeting of the Connecticut Forest and Park Association, to be held today, a resolution was adopted to vote the amount of \$24,000 to the state forest fund.

At the annual meeting of the Connecticut Forest and Park Association, to be held today, a resolution was adopted to vote the amount of \$24,000 to the state forest fund.

The success of the affair was due to the work of the general committee and the splendid assistance by the Whitehorns.

BOYS SET FIRE TO EAST SIDE BARN

EAST SIDE BARN

The fire department responded to an alarm at approximately 11:15 o'clock yesterday at 185 East Side street, the home of James A. Young, on the East Side. When the firemen arrived they found a stack of hay burning and all the roofs were gone.

There were 100 feet of hay in the barn, which was surrounded by trees. The stack was 100 feet high and 100 feet wide.

There were 100 feet of hay in the barn, which was surrounded by trees.
